BBA

General Subjects

Vol. 1157, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Stimulation of microsomal chemiluminescence by ferritin
S. Puntarulo and A.I. Cederbaum (Argentina, USA) 1

Nitrogen metabolism during liver regeneration
M. Lorenzi, A. De Martino, F. Carlucci, A. Tabucchi, B. Porcelli, M. Pizzichini, E. Marinello and R. Pagani (Italy) 9

Isolation of an endogenous Na-pump specific inhibitor from normal pig urine: characterization and comparison with the inhibitor purified from bovine adrenal glands
M. Tamura, M. Naruse, M. Sakakibara, T.I.W.T. Fitzgerald, P.J. Horton, J. Nelson and E. Price, Jr. (USA, Japan) 15

Radical production from peroxide and peracid tumour promoters: EPR spin trapping studies
T.L. Greenley and M.J. Davies (UK) 23

Dielectric measurements on electro-manipulation media
W.M. Arnold, A.G. Gessner and U. Zimmermann (Germany) 32

A novel lectin in rabbit serum binds H type 1, H type 2 and *N*-acetyl lactosamine structures
O. Hosomi, A. Takeya and S. Yazawa (Japan) 45

The effect of sequence variations and structure on the cytolytic activity of melittin peptides
J.A. Werkmeister, A. Kirkpatrick, J.A. McKenzie and D.E. Rivett (Australia) 50

Phosphate-dependent glutaminase of rat skeletal muscle. Some properties and possible role in glutamine metabolism
J. Świerczyński, Z. Bereznowski and W. Makarewicz (Poland) 55

The myosin molecule – charge response to nucleotide binding
E.M. Bartels, P.H. Cooke, G.F. Elliott and R.A. Hughes (UK) 63

Structure-function relations of biotin derivatives of apamin
S. Shahidi, P. Poronnik, J.A. Barden and D.I. Cook (Australia) 74

Isolation, partial characterization and complete amino acid sequence of the toxic phospholipase A2 from the venom of the common viper, *Vipera berus berus*
I. Križaj, J. Siigur, M. Samel, V. Cotič and F. Gubenšek (Slovenia, Estonia) 81

A potassium channel toxin from the secretion of the sea anemone *Bunodosoma granulifera*. Isolation, amino acid sequence and biological activity
A. Aneiros, I. García, J.R. Martínez, A.L. Harvey, A.J. Anderson, D.L. Marshall, Å. Engström, U. Hellman and E. Karlsson (Cuba, UK, Sweden) 86

A microtiter enzyme-linked immunosorbent assay for protein tyrosine phosphatase
S. Mishra and A.W. Hamburger (USA) 93

Formation of hydroxyl radicals and Co^{3+} in the reaction of Co^{2+}-EDTA with hydrogen peroxide. Catalytic effect of Fe^{3+}
M.K. Eberhardt, C. Santos and M.A. Soto (Puerto Rico) 102

Trichoderma reesei has no true exo-cellulase: all intact and truncated cellulases produce new reducing end groups on cellulose
J. Ståhlberg, G. Johansson and G. Pettersson (Sweden) 107

Reduced T_3 deiodination by the human hepatoblastoma cell line HepG2 caused by deficient T_3 sulfation
P.G.J. Van Stralen, H.J. Van der Hoek, R. Docter, M. De Jong, E.P. Krenning, C.F. Lim and G. Hennemann (The Netherlands) 114

Regular Papers

Role of Hageman factor/kallikrein-kinin system in pseudomonal elastase-induced shock model
M.M.H. Khan, T. Yamamoto, H. Araki, Y. Shibuya and T. Kambara (Japan) 119

Three-dimensional electric field traps for manipulation of cells – calculation and experimental verification
T. Schnelle, R. Hagedorn, G. Fuhr, S. Fiedler and T. Müller (Germany) 127

A new mixed disulfide species in human cataractous and aged lenses
J.E. Dickerson, Jr. and M.F. Lou (USA) 141

Cleavage of the α_1-microglobulin-bikunin precursor is localized to the Golgi apparatus of rat liver cells
T. Bratt, H. Olsson, E.M. Sjöberg, B. Jergil and B. Åkerström (Sweden) 147

Hydrogen peroxide metabolism and oxidative stress in cortical, medullary and papillary zones of rat kidney
B. Gonzalez-Flecha, P. Evelson, N. Sterin-Speziale and A. Boveris (Argentina) 155

Hydroxyl radical production in the reactions of copper-containing amine oxidases with substrates
F.N. Castellano, Z. He and F.T. Greenaway (USA) 162

Identification and characterization of two enzymes involved in the intracellular metabolism of cobalamin. Cyanocobalamin β-ligand transferase and microsomal cob(III)alamin reductase
E.H. Pezacka (USA) 167

Purification and characterization of the valine sensitive acetolactate synthase from *Serratia marcescens* ATCC 25419
J.H. Yang and S.S. Kim (South Korea) 178

Polymorphic hemoglobin from a midge larva (*Tokunagayusurika akamusi*) can be divided into two different types
M. Fukuda, T. Takagi and K. Shikama (Japan) 185

Preparation and characterization of *S*-[2-carboxy-1-(1*H*-imidazol-4-yl)ethyl]glutathione and its derivatives as proposed precursors of *S*-[2-carboxy-1-(1*H*-imidazol-4-yl)ethyl]cysteine, a compound found in human urine
M. Kinuta, T. Ubuka, K. Yao, S. Yamada, K. Yukihiro and M. Tomozawa (Japan) 192

Acetylcholinesterase as polyelectrolyte: interaction with multivalent cationic inhibitors
V. Tõugu, T. Kesvatera, A. Lääne and A. Aaviksaa (Estonia) 199

Localisation of α, μ and π class glutathione *S*-transferases in kidney: comparison with CuZn superoxide dismutase
S.J. Davies, R. D'Sousa, H. Philips, D. Mattey, C. Hiley, J.D. Hayes, G.M. Aber and R.C. Strange (UK) 204

On the inactivation of bacteria by singlet oxygen – another view
J.G. Parker (MD (USA)) 209

Solvent effect on testosterone-antitestosterone interaction
G. Giraudi and C. Baggiani (Italy) 211

Further characterization of an adenosine-containing modification of vaccinia virus proteins
S.J. Child and D.E. Hruby (USA) 217

Regular Papers

The presence of lysylpyridinoline in the hypertrophic cartilage of newly hatched chicks
M.W. Orth, D.A. Martinez, M.E. Cook and A.C. Vailas (USA) 229

An investigation of the filtration capacity and the fate of large filtered sterically-stabilized microspheres in rat spleen
S.M. Moghimi, H. Hedeman, I.S. Muir, L. Illum and S.S. Davis (UK) 233

Structure and composition of type IV collagen of bovine aorta
G.K. Reddy, S. Gunwar, R. Kalluri, B.G. Hudson and M.E. Noelken (USA) 241

Oligosaccharide specificity of normal human hepatocyte α1–3 fucosyltransferase
M. Jezequel-Cuer, H. N'Guyen-Cong, D. Biou and G. Durand (France) 252

Metabolic fate of alanine in an insect *Manduca sexta*: effects of starvation and parasitism
S.N. Thompson and R.W.-K. Lee (USA) 259

Hemozoin production by *Plasmodium falciparum*: variation with strain and exposure to chloroquine
A.U. Orjih and C.D. Fitch (USA) 270

Resonance Raman study of sirohydrochlorin and siroheme in sulfite reductases from sulfate reducing bacteria
T. Underwood-Lemons, I. Moura and K.T. Yue (USA, Portugal) 275

α2,6-Sialyltransferase predominates in cultured jejunum of suckling rats: it is up-regulated by dexamethasone and secreted during cultivation
A. Hamr, V. Vlasáková and J. Kolínská (Czech Republic) 285

Branched-chain 2-oxo acid dehydrogenase complex activation by tetanic contractions in rat skeletal muscle
Y. Shimomura, H. Fujii, M. Suzuki, N. Fujitsuka, M. Naoi, S. Sugiyama and R.A. Harris (Japan, USA) 290

Egg hatching activity of trihydroxylated eicosanoids in the barnacle *Balanus balanoides*
E.M. Hill, D.L. Holland and J. East (UK) 297

The mechanism of interaction of carnosine with superoxide radicals in water solutions
A.R. Pavlov, A.A. Revina, A.M. Dupin, A.A. Boldyrev and A.I. Yaropolov (Russia) 304

Kinetic study of free-radical-scavenging action of biological hydroquinones (reduced forms of ubiquinone, vitamin K and tocopherol quinone) in solution

K. Mukai, H. Morimoto, S. Kikuchi and S.-i. Nagaoka (Japan) 313

Participation of oxidative stress in the process of osteoclast differentiation
N. Suda, I. Morita, T. Kuroda and S.-i. Murota (Japan) 318

Rapid Reports

Characterization of topa quinone cofactor
K. Kano, T. Mori, B. Uno, M. Goto and T. Ikeda (Japan) 324

Microring-ring electrode for manipulation of a single cell
T. Matsue, N. Matsumoto, S. Koike and I. Uchida (Japan) 332

Corrigendum 337

Cumulative Contents, Vol. 1157 339

Author Index 342
